

How many different types of monkeys can you find in the rainforest?

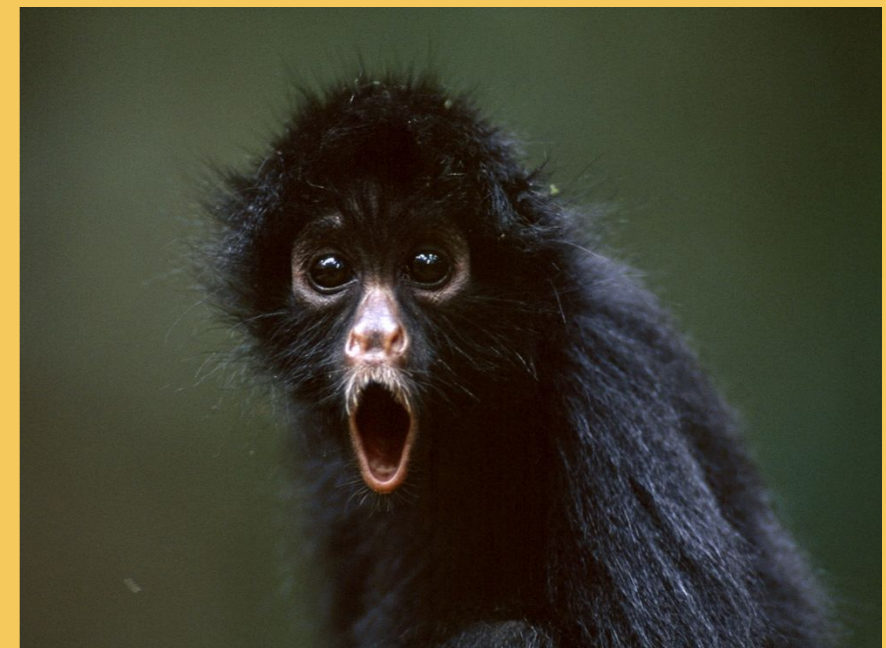

By Immy an Miles

Some of the types of monkeys 🐒

- * Howler monkeys are the largest species of monkeys and the loudest
- * Spider monkeys don't have a thumb and they grow up to 2 feet

- * Capuchin monkeys are the most intelligent monkey species in South America
- * The golden ruffled tamarins can be found in São Paul's, B

* WHAT do they EAT

* Monkeys are omnivorous, so they eat plants and meat

* They eat fruit

* Leaves, seeds, nuts, flowers, and insects
