

Arlo – Year 3 Jade

A long time ago in a galaxy far far away...

Three brothers who were all very different roamed around their home planet.

There was Rob who loved space football (same as normal football but in space!), then Jack who liked star music (which is the same as punk rock but in space!) and then there was Michael who liked rocket cricket (which is the same as normal cricket!).

On one dark stormy night their parents vanished! So the three brothers went on a mission to find their parents.

First they went through a swamp filled with monsters and they had to battle through vines. The vines were crawling with eight legged leeches! Then they went through a sea of white dragons where Rob almost got eaten! Finally, they got to the forest and found a bloody tooth which looked suspicious.

They searched and searched, for their parents but then another clue, a chopped up slimey tentacle. This led them to a huge monster with one eye dripping with slime, huge bloody dirty teeth, seven tentacles and a big gaping hole where another tentacle would have been. But then they found their father's baseball cap in one tentacle and their mum's shoe in the other tentacle. Could this be the thing that made their parents vanish?

The brothers could hear screams coming from the belly of the monster. Rob whacked the monster with his football and then Jack played super loud music that hurt the monsters ears and then Michael walloped cricket balls in his face and defeated the monster head on and freed their parents from the belly of the monster.

THE END
